The News Review

By BRUCE CATTON

DESPITE all the talk about organized crime, the average murder in this country is not a hardened criminal or a vicious alien, but is a native-born adult between the ages of 25 and 34 with no previous criminal record.

Location of Pet Milk Condensery Here Is Talked

Representative Says This County Offers Opportunities

ACTION IS URGED

S. G. Dildy Points Out Advantages of Hempstead Farmers

Possible location of a Pet milk condensery in Hope was discussed here Friday by S. G. Dildy, a representative of the company.

Mr. Dildy said that Hope was an ideal place for development of dairying, and urged that a movement be started among Hempstead farmers and business men to bring his company to this city. He pointed out advantages and opportunities offered in this section.

Mr. Dildy told of a movement that was started at Siloam Springs which resulted in the purchase of the Cartage creamery company by the Pet concern on April 8 of this year.

Since then, Mr. Dildy said, farmers in that section of the state have enlarged their herds and are buying more and better milk cows as the Pet concern is purchasing a large supply of raw milk and cream direct from the farmer at highest prices possible.

Tells of Benefits
Prices paid depend upon tests. Mr. Dildy said the price range for the past month has been from \$1.69 to \$2.07 per hundred pounds.

The Pet company at present is purchasing over 200,000 pounds of milk daily at Siloam Springs, compared with 2,000 pounds daily that was bought by the former milk company.

He told of farmers from the dairymen belts of Oklahoma and Kansas that were flocking into the Siloam Springs area to share in the development of the dairy business there.

"I would like to see such a movement started in Hope. This section offers wonderful opportunities. It would mean much to the county, the farmers and to Hope," Mr. Dildy concluded.

Sterilization Bill Goes to Governor

Alabama Senate Passes Measure Applying to Criminals

MONTGOMERY, Ala.—(AP)—The Domnick sterilization bill, applicable to habitual criminals and mental degenerates, lacked only the signature of Gov. Bibb Graves to become a law having been passed, 38 to 9, by the state Senate Friday.

Senator Bayse Tucker of Tuscaloosa and the two physician-senators, Dr. L. A. Weaver and W. A. Parish, pushed passage of the Domnick bill.

Senator L. J. Browder, Scottsboro high school principal, charged that the court had left congress room enough "to accomplish everything that is of national importance, and it is one of the principal opponents of this bill."

Senator Rogers charged the bill did not afford due process of law as guaranteed by the Constitution, and argued that it was in conflict with that clause guaranteeing life, liberty and the pursuit of happiness.

Filling Station Operator Found Nailed to Cross

Ten-Penny Nails Had Been Driven Through Hands and Feet

BOMB WRECKS HOME

Terrific Blast Is Aimed at President of College

HIGH POINT, N. C.—(AP)—J. R. Riggs, middle-aged filling station operator, was found nailed to a rough board cross which had been set up beside the highway near his establishment early Saturday.

Ten-penny nails had been driven through each hand and foot which held him to the cross.

Police quoted Riggs as saying that three men came to his station where he slept early Saturday, ordered him from his bed and nailed him to the cross.

Explosion Destroys Home
TIFFIN, Ohio.—(AP)—A terrific bomb explosion demolished the front porch and badly damaged the home of Charles E. Miller, president of the Heidelberg college early Saturday.

Mr. and Ms. Miller and daughter, Gretchen, who were asleep in the house at the time, escaped injury.

Neither president Miller nor Police Chief Matchler could give any reason for the bombing.

Heidelberg college was the scene of student trouble in 1931 when college students protested various rules that President Miller promulgated.

State Bar Honors

Calvin T. Cotham

Former Jurist of Hot Springs Is Elected President

HOT SPRINGS—Calvin T. Cotham of Hot Springs, former circuit judge, Friday was elected president of the Arkansas State Bar Association. He succeeds R. E. Wiley of Little Rock.

Judge James F. Gauthier of Jonesboro was elected vice president, defeating W. R. Donham of Little Rock.

Roseve Lynn of Little Rock, who for more than a quarter of a century has been secretary-treasurer, was re-elected.

Mr. Cotham is a native of Monticello, Drew county, and a graduate of Hendrix college, Conway, Washington and Lee University and the Little Rock Law School. He represented Drew county in the legislature, after which he moved to Hot Springs. He served as judge of the Eighteenth Judicial Circuit.

For Integrated Bar

In reports of special committees and addresses the delegates made it plain they did not wish the state organization to cease its campaign for an integrated bar. Committees will be named by President Cotham to carry on a campaign for passage of legislation by the next legislature, to ascertain the advisability of initiating such a measure, and to enlist services of all attorneys in the state. Another committee will take up a proposal for a new digest with Governor Puttall.

Mr. Cotham, a native of Mississippi, is a graduate of Hendrix college, Conway, Washington and Lee University and the Little Rock Law School. He represented Drew county in the legislature, after which he moved to Hot Springs. He served as judge of the Eighteenth Judicial Circuit.

W. G. Leftwich to Head Memphis Cotton Carnival

MEMPHIS, Tenn.—(AP)—W. G. Leftwich, an investment banker, was elected president of the Memphis Cotton Carnival Association Friday, succeeding S. Toll Brown. The association named R. B. Snowden Jr., chairman of the national cotton show; A. Arthur Halle and Everett Cook as a committee to investigate the advisability of erecting a building to house the national show.

He challenged the Supreme Court's interpretation of the fundamental law and told a hundred reporters that the court had "relegated the nation to the status of a horse and buggy."

The president said the Federal Alcohol Control Administration was gone and the Agricultural Adjustment Administration and the Securities Exchange Commission were threatened.

He would not discuss remedies but promised statements on them soon.

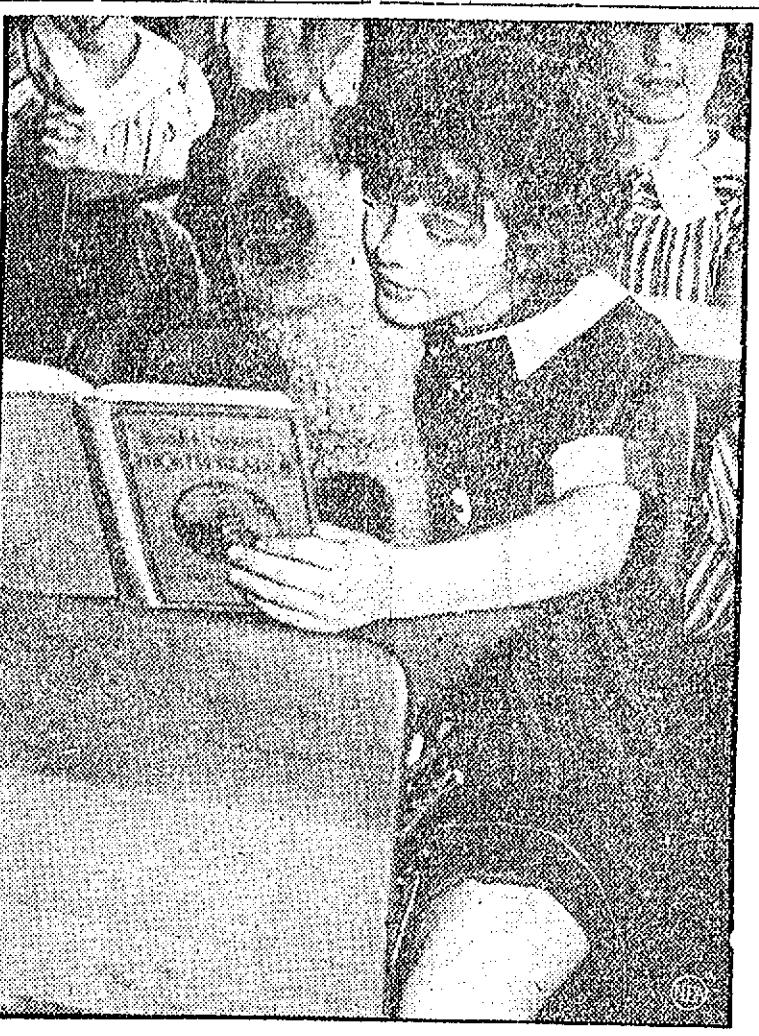

Senator Robinson Arrives

For an hour and a half the president talked NRA with the newspapermen who jammed his office. Frequently he waved a copy of the Supreme Court's NRA opinion to emphasize his points. So intent was he that he smoked but one cigarette in that time. His desk was littered with telegrams and letters to which he referred from time to time.

Mrs. Roosevelt was present, knitting on a nearby divan, but listening intently. Senator Robinson of Arkansas, Democratic leader of the senate, entered in the middle of the conference, pushed his way through the reporters and sat down on a low window sill behind the president.

Averaging over 70 years, the justices have been brought up on the old-

Virginia's Little Lamb

Like Mary's little lamb, Virginia's goes to school, but there the resemblance ends. For Virginia Sturm's pet is a welcome guest in the fourth grade at Park school, Wichita, Kan. Shown here with Virginia as she studies her reading lesson, the lamb is a great help to the children in nature study, declares Teacher Margaret Strachan, who encourages her pupils to bring their pets to the classroom.

Dodson Is Freed on Liquor Charge

West Held to Grand Jury for Possession of 50 Gallons

Claude West, 45, and Claude Dodson, 46, both of Hope, were given a hearing Friday before United States Commissioner S. A. Phillips at Texarkana on charges of transporting liquor on which no revenue tax had been paid.

The court dismissed the charge against Dodson, but held West for the grand jury on bond of \$500, which he furnished.

It was shown that the automobile and the 50 gallons of liquor which were taken with the two defendants belonged to West.

It was shown that Dodson had no interest in the cargo of whisky, and had been asked to ride by West.

The two men were arrested near Hope last Saturday by Sheriff Jim Bearden and deputies.

Golf Tourney Is Set for June 9th

Hope Will Be Host to Nashville at That Time

W. T. McKnight, 45, of Springfield, killed near Fayetteville

The golf tournament between Hope and Nashville players, tentatively scheduled for Sunday afternoon, has been arranged for the following Sunday, June 9. C. S. Fox, Hammons said noon Saturday.

The coach explained that Nashville players would be unable to compete Sunday.

In the meantime the 12 players representing Hope in the tourney will be determined in play before June 9.

THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

WASHINGTON—Members of the U. S. Supreme Court are almost isolated from the realm of gossip as the marble lions of former chief justices which adorn their chamber. But not quite.

The justices have secretaries. Many of their ex-secretaries are in the New Deal ranks. The combined group has a fairly definite idea of what goes on in the minds of those nine old men—and the emotional background behind each legalistic opinion which swerves the nation's economic fate.

And although they aren't blabbing, these young fellows are able to explain why all nine liberal and conservative alike, with a unanimity which intensified the New Deal's legalistic opinions which swerve the nation's economic fate.

He would not discuss remedies but promised statements on them soon.

Senator Robinson Arrives

L. R. Goodwill Troopers Are to Arrive Tuesday

Special Train Will Bring Little Rock Delegates to Hope

RECEPTION PLANNED

John Barlow Will Be in Charge of Local Arrangements

Hope will be host to a party of approximately 100 business and professional men from Greater Little Rock who will stop here at 12:22 p. m. Tuesday, June 11, on their three-day good will tour of Southwest and South Central Arkansas.

The tourists will be in Hope for about one and one-half hours, meeting with local business men at lunch and renewing old acquaintances. John Barlow will be in charge of local arrangements for reception of the party.

The tour is sponsored by the Little Rock Chamber of Commerce and will be headed by H. H. Tucker, president of the chamber, Joshua K. Shepherd, immediate past president and chairman of the organization's good will committee, and Mayor R. E. Overman of the city of Little Rock.

With the party will be other Little Rock men well known in Hope, including Robt. K. Beal of the Beal-Burrewood Dry Goods Company, Julian G. Glass of the Gus Glass Company, Charles T. Evans of the Arkansas Fever & Light Company, and Robert E. Wait of the Arkansas Bankers association.

30-Piece Band

The good willers will arrive by a special train and will be accompanied by the Chamber of Commerce Good Will Band of 30 pieces which will furnish entertainment.

"Many of us from the capital city come to Hope in the course of the year as individuals," said Mr. Shepherd in announcing the tour, "but on this trip we are coming as a community. Included in our party are representatives from every type of business and profession in Greater Little Rock. We are coming to make new acquaintances and renew old ones. We want to know Hope better and we want Hope to know us better."

Leaving Hope at 2:57 p. m. the tourists will continue their Southwestern journey, stopping at Fulton and arriving in Texarkana at 4 p. m. where they will spend the night.

The second day the party will turn east over the Cotton Belt, taking lunch at Caddo then following the Missouri Pacific to El Dorado for the second night's lodging. They will turn homeward over the Rock Island Thursday the 13th, sidestepping over the Warren-Ouachita Valley line to take lunch at Warren.

250 May Be Dead in Floods, Tornado

Death Toll Mounts in Devastated Nebraska and Colorado

MC COOK, Neb.—(AP)—Relief workers in flood and tornado-devastated areas of southwestern Nebraska Saturday estimated that the death toll may exceed 250 persons, and confirmed reports that the villages of Max and Parks had been swept away by flood waters.

Many casualties followed after a tornado cut about-mile swath through Red Willow county late Friday. Torrential rains caused flat rivers and creeks in that area suddenly to go out of their banks.

The meeting also will be attended by District Governor Fred Keller of Jonesboro, the newly-elected governor of Arkansas, Carlisle Robbins of Stuttgart, and three past district governors.

Mr. Cox was the principal speaker in a program arranged by Terrell Cornelius. A number of visitors attended, including four from Stamps.

Announcement was made of an inter-city meeting to be held in Hope at 7:30 p. m. Friday, June 6. The meeting will be in Hotel Barlow at which time five clubs in Southwest Arkansas will be represented.

The meeting also will be attended by District Governor Fred Keller of Jonesboro, the newly-elected governor of Arkansas, Carlisle Robbins of Stuttgart, and three past district governors.

Ed McCorkle presided over the Friday meeting in the absence of the president, Albert Graves, who was attending the state bar association meeting at Hot Springs.

The slain officer was Pete Wilson, Chickasha policeman.

Captured with the robbers were two girls, one identified as the wife of Sander and the other as Ruby Moore of Healdton. They, too, were in the cabin.

Circuit Court at Texarkana Monday

TEXARKANA—Circuit Court will be convened here Monday, to remain in session about two weeks. Both criminal and civil docket are lighter than usual. The Grand Jury is expected to be in session only two or three days.

The first three days will be devoted to criminal cases brought over from last term, following which cases appealed from Municipal Court and justice courts will be considered. Civil business will be taken up the second week.

Markets

NEW ORLEANS—(AP)—The cotton market Saturday halted its decline of Friday's session and after opening

unadjusted, rose slightly.

YOUR DR. MORRIS FISCHBEIN

HEALTH YOUR CHILDREN

By Olive Roberts Barton

More Hope Extended For Paresis Victims.

If a man or woman developed softening of the brain (or general paresis) around 1900, the outlook was invariably bad. There was the possibility of fatality, and, if life persisted, the likelihood of years of confinement in an institution for the insane.

Since that time great advances have occurred. The famous Japanese investigator, Noguchi, found that this condition was caused by the organism that produces syphilis.

Then a German investigator showed that the injection of such people with the organism that causes malaria brought about a fever which tended to stop progress of the paretic condition.

Since that time other methods of producing fever have been developed, including use of heat brought about by passing an electrical current through the body, and heat developed through devices for raising temperature of the air and controlling humidity.

Moreover, certain products have developed which act specifically against this disease, including various modifications of arsenic, such as salvarsan (or 606), neosalvarsan, and tryparsamide.

The outlook for such a person today is not hopeless. For example, in 1909, 75 per cent of men with this condition who were admitted to institutions in New York died in the institution within four years and 81 per cent died within 15 years.

Studying the figures from 1925 through 1931, we find a tremendous improvement. Of 736 patients admitted to the institution in 1928, 1 per cent were discharged as recovered, 16.7 per cent as much improved, and 10.9 per cent were discharged as considerably improved.

Or, contrasting more specifically the patients with this condition who could be discharged from the hospital, one-half of 1 per cent recovered in 1920, whereas in 1931 about 3 per cent recovered. In 1920, 10 per cent were improved, whereas in 1931, 26 per cent were improved.

Studying the figures from 1925 through 1931, we find a tremendous improvement. Of 736 patients admitted to the institution in 1928, 1 per cent were discharged as recovered, 16.7 per cent as much improved, and 10.9 per cent were discharged as considerably improved.

Or, contrasting more specifically the patients with this condition who could be discharged from the hospital, one-half of 1 per cent recovered in 1920, whereas in 1931 about 3 per cent recovered. In 1920, 10 per cent were improved, whereas in 1931, 26 per cent were improved.

The outlook for such a person today is not hopeless. For example, in 1909, 75 per cent of men with this condition who were admitted to institutions in New York died in the institution within four years and 81 per cent died within 15 years.

June

And what is so rare as a day in June? Then, if ever, come perfect days; Then Heaven tries the earth if it be in tune.

And over it softly her warm ear lays: Whether we look, or whether we listen, We hear life murmur, or see it glisten;

Every clod feels a stir of might, An instinct within it that reaches and swerves,

And, groping blindly above it for light, Climbs to a soul in grass or flowers.

The flush of life may well be seen Thrilling back over hills and valleys;

The cowslip startles in meadows green.

The buttercup catches the sun in its chalice,

And there's never a leaf nor a blade to mean

To be some happy creature's palace.

Selected.

Mr. and Mrs. Frank Lowthorp of New Orleans will arrive Sunday night for a visit with Mr. and Mrs. C. S. Lowthorp.

Mrs. S. L. Reed, Mrs. Frances Allian, Mrs. Robert Wilson and Miss Mary Wilson motored to Texarkana Friday evening to see the graduation of Chas. Sidney Hervey second son of Mr. and Mrs. Calvin Hervey, who were former residents of Hope.

Miss Josephine Morris of Henderson State Teachers college, Arkadelphia, has arrived to spend the summer vacation with her mother, Mrs. Gladine Morris and other relatives.

Misses Hattie Anne Field and Frances Patterson are spending Saturday in Hot Springs attending a scout meeting and seeing the rodeo.

The Woman's Missionary Society of the First Christian church will meet Monday afternoon at 3:30 at the home

Gingham Moves From Kitchen to Ballroom

In grandma's day "cotton wash frock" meant a utilitarian affair completely devoid of style appeal. She would have quivered with embarrassment if compelled to appear on the dance floor in one.

The gal of today, however, makes a

yellow and orange gingham in a glamorous appearance at her most formal parties in such fabrics as gingham, pique and calico, proving that you've got the goods if you know how to wear it!

At the left of the sketch, blue and

blue plaid pattern forms a full-skirted frock, bordered in a matching ruffle. The bodice is slightly full and has enormous puffed sleeves.

Pink cotton net is used for the gown in the center. The hobble skirt ends in a wide pleated flounce, tied with

blue velvet ribbons. The removable cape ties at the neck.

At the right, dotted swiss in brown and white makes a romantic gown with a double dust ruffle about the hem. The upstanding ruffled collar is flattering to most any face.

She calls it a Cook's Tour

Nobody thought Katherin would make a very good wife. She seemed too frivolous. Always made a game out of everything. Hadn't a practical thought in her head—so it seemed.

Maybe that's why she does make Ed such a good wife. You still wouldn't think she was serious about a thing. Yet she must be. Because you've never seen a house kept better in your life. Or a budget balanced more neatly.

Most women come home from shopping all tired out. Not Katherine! She makes a grand game of it . . . calls it her weekly "Cook's Tour." She pores over her newspaper like a travel map . . . charts a course that takes her to bargain ports . . . and gets there without one wasted step.

How? She follows the advertisements. Watches them as closely as a sailor watches his compass. And the gets fun out of it all. But who wouldn't, with a happy home like hers and her knack for saving up money!

Boy Scouts

Hempstead County District of Boy Scout leaders met Friday night in the meeting rooms of Troop No. 58, with Rev. George F. X. Strassner, District Chairman, presiding. The report of the Committee on Finance showed the district in the best financial condition in many years. The Committee on Court of Honor was instructed to prepare a Court for June 24, to be held in Hope with a place and program to be announced later.

The Scout Executive, W. H. McMillen, recently transferred to the Texarkana Council from the McAllister, Okla. Council, outlined a plan for this district, which was accepted by the scoutmasters and troop commissioners in attendance. The next district meeting will be held before the opening of the next term of school. During the meeting, a smoker was enjoyed.

The Scout Executive attended the Rotary meeting as the guest of Rev. Strassner, and the Kiwanis meeting in the evening as the guest of A. W. Stubberman, Scoutmaster of Troop No. 58.

Grid Game Here Results in Tie

Yerger Team and All-Stars Battle to 7 to 7 Deadlock

The football game between Yerger High School and an All-Star aggregation ended in a 7 to 7 deadlock Thursday afternoon. The game was played on Yerger athletic field.

The all-stars scored early in the game. The high school team rushed over a touchdown in the last minute of play and then kicked goal to tie the score.

Smith made the touchdown for the all-stars. Stewart tallied for the high school. Both scores resulted from passes.

Jabbo Walker, playing center for the high school, was an outstanding performer.

A recent estimate from Washington indicates that modern military airplanes of all types taken together cost an average of more than \$50,000 each including equipment.

Only 6 per cent of the commercial aviation companies employ more than 15 persons each, four-fifths of them having fewer than six active employees each.
